

## MORE ON OFF ROAD BIKING ENJOYMENT IS YOURS.

They're ultra versatile, sporty, light in weight and fun to ride. And they're both loaded with technological features that make them second to none in their class. Yamaha's exclusive torque induction system, for instance, assures smoother engine rpms throughout the entire speed range.

It means optimum performance in running around town, in high speed touring or in biking over hilly terrain. The renowned Monocross suspension system gives an extra comfortable ride, makes for steadier handling over the roughest terrain. A newly designed rear swing arm with a square section always keeps the rear wheel running straight and true without flex or wobble. The sturdy, narrow profile tubular steel frame has the slim 2-stroke

single positioned for optimum balance. The powerplant also features an extra large cylinder fin area which allows better cooling for prolonged engine life. A unique autolube system mixes the oil and gas according to engine load, assuring better fuel economy, longer engine life. Feature for feature, these are the machines that'll give you more high spirited allaround biking fun. Take your pick: the Yamaha DT175 or the DT125.

## DT125/175 SPECIFICATIONS

DT125/175 SPECIFICA	ITIONS
ENGINE	
Type	stroke, single
Displacement 1	71 cc [123 cc]
Bore & Stroke 66 × 50 mm	[56 × 50 mm]
Compression ratio6	
Maximum power	.3 PS(12 kW)
	@6,500 rpm
[14.0]	PS (10.3 kW)
	@7,000 rpm]
Maximum torque 1.70 kg-	-m (17.4 Nm)
	@6,000 rpm
	-m (13.9 Nm)
	@6,500 rpm]
Lubrication	
Starting	Primary kick
Transmission	6-speed
