

KE175

You want more than just enough power to keep up with traffic on the streets. A machine that'll zip, not lug. And when you get to the dirt, you want to take the hills - not the other way around. That's what 174 cc will do. And that's why this bike's ideal for you.

The KE175. It's simple, because Kawasaki thinks life is complicated enough. CDI makes starting easy and tune-ups few and far between. And whether you're riding the range or cruising the highway, automatic oil injection ensures hassle-free lubrication.

The KE175 is light in all the right places, too. Conical hubs, alloy wheel rims, plastic fenders and a tough plastic skid plate keep the weight down. A full cradle frame and a robust box-section swingarm give you great handling. Laydown shocks keep the rear end tracking straight, and leading-axle forks make steering light and easy.

Now you can have your dirt and keep the street, too. The KE175 gives you both, in an excellent dual purpose machine that moves as good as it looks.

The KE175 has a rugged two-stroke engine with Electrofusion cylinder, Superlube Injection and maintenance-free CDI ignition.

Flexible, impact-absorbing turn signal mounts.

Tucked-in muffler with US Forestry Service approved spark arrestor.

Leading-axle forks.

Strong, lightweight conical hubs.

On-and-off-road knobby-pattern tires on aluminum alloy rims.

Five-speed transmission.

Box-section swingarm.

SPECIFICATIONS

Engine Reed valve 2-stroke
Displacement 174 cc
Bore x stroke 62.5 mm x 57 mm
Carburetion 26 mm Mikuni
Ignition CDI
Starting Primary kick
Transmission 5-speed
Suspension, front Leading-axle forks
Suspension, rear Laydown shocks
Tire, front 2.75-21
Tire, rear 3.50-18
Brakes, F/R Drum/drum
Fuel capacity 2.5 gal.
Weight, dry 225 lbs.
Seat height 33.3 in.
Color Firecracker Red
