KTM

The Story so far...

10 years of dirt bikes, dreamers & heroes.

Over 10 years, KTM has revolutionised the Australian off road motorcycle scene. There is now a sea of orange in every arena of Australian off road motorcycle racing. KTM began in Austria over 50 years ago. In recent years KTM has set the goal to become the largest motorcycle manufacturer in Europe. This is no longer a dream. It's fast becoming a reality. The KTM team in Australia and the KTM factory in Austria pride themselves on delivering the finest quality, innovation and performance seen in any off road motorcycle.

Keeping the faith..

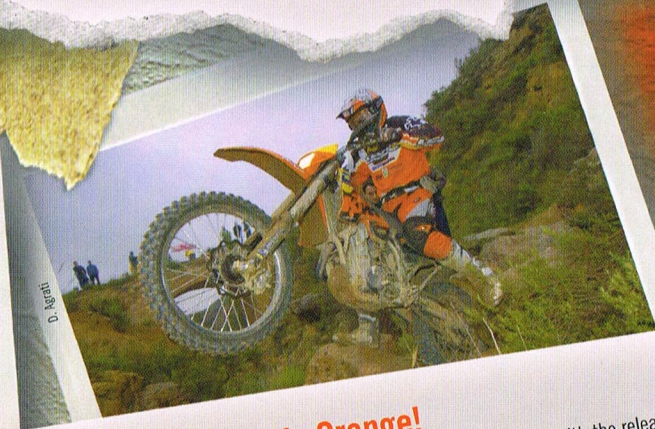

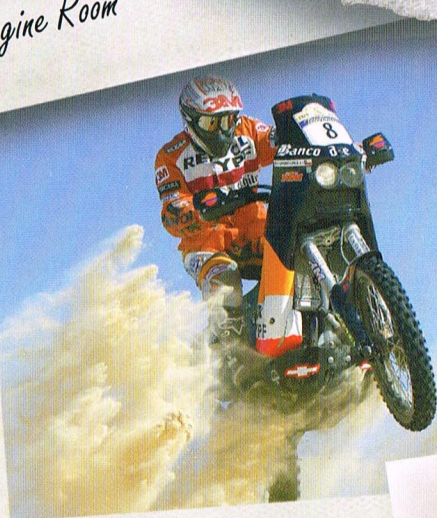

KTM's commitment to you, the rider, is not only producing the best off road motorcycles, but having the support and commitment of a nationwide dealership team. Our KTM dealership team is fully trained to deliver the support, servicing and parts to keep you and your bike where you belong off road!

Engine Room

The future's bright! The future's Orange!

KTM in Australia continues to grow and this year KTM celebrates their off road 2005 range with the release of 14 exciting new models. These new models are in our Mini, Motocross and Enduro ranges and complement our extensive range in all arenas of off road motorcycles. Experience the KTM difference....join the Orange Team today!

Dakar 04

Jay SX Nat 2004

Racing and winning.

At KTM our motto is simple: We race what we sell! When you see the results of our KTM Racing Teams, what we sell wins!

To prove the reliability and performance of our bikes, KTM Australia is heavily committed to Junior and Senior Motocross, Enduro, Rally and Supermotard. We have assembled a committed team of riders, managers, support crew and sponsors that were all successful in winning championships in 2003/04.

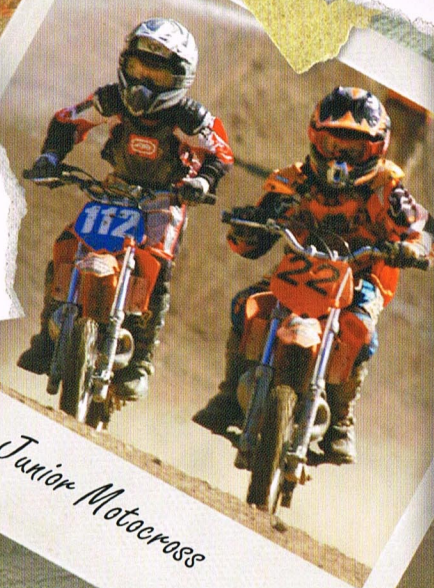

The choice of Champions

Many of motorsport's top names are aboard our Orange machines. KTM is the choice of World Enduro champion Juha Salminen, World Motocross Champion Steve Ramon, Australian Supercross Champions Jay & Ryan Marmont, 4 times Australian Safari Champion Andy Caldecott, Australian Supermoto & A4DE Class Champion Stuart Bennett, USA 125cc Motocross champion Grant Langston and many of the sports other top riders.

KTM is the motorbike choice for champions, aspiring champions and weekend warriors alike.

KTM USA Cup

The KTM USA Cup was a huge success in 2003 with three of Australia's young motocross heroes tasting success in the World Mini Grand Prix in Las Vegas, Nevada.

KTM Australia is proud to support junior motocross racing by helping young riders and their families achieve their dreams and aspirations via our KTM USA Cup event.

The good news is that the event is on again at the Broadford motorcycling complex in Victoria on October 9-10, 2004.

This year there are more prizes and awards than ever before and, with no state qualification required, all KTM junior and senior riders are eligible. So now is the time to join the Orange team and take advantage of the benefits of riding KTM.

Log on to www.ktm.com.au for more details and to enter online.

Just another reason to ride KTM.

50MINIADVENTURE2005

FEATURES

- New carburetor jetting spec
- New rear shock

50SXPROSENIORLC2005

FEATURES

- Marzocchi 32mm front forks
- Disc brakes front & rear
- Adjustable WP rear shock
- 12" front wheel
- Liquid cooled

- Aluminium subframe

Motocross Range 2005

New frame

New lateral chromoly tubes (oval profile) with higher rigidity which improves handling & suspension action without increasing weight.

New graphic & shroud design

A stiffer layout with improved ergonomics for more leg movement.

New CNC machined variable offset triple clamps

Machined from 7075 aluminium with 3 bolts for extra stability & precise fork mounting. Variable offset positioning from 18mm to 20mm with adjustable 6 position handlebar settings for rider individuality.

New 2005 WP forks

New setting with optimized response characteristics & a greater bottoming resistance with less friction, wear & reliability. New oil & dust seal (two lipped) for a much better seal.

New 2005 WP PDS shock

New shock body & settings for a more progressive damping curve with less bottoming and better traction.

New front brake master cylinder

New lever geometry and piston diameter for improved brake performance and control.

125SX2005

FEATURES

- Proven championship winning engine design
- Renthal Fatbar & dual compound grips
- V-Force reed valve
- Keihin PWK 39mm carburetor
- Magura hydraulic clutch

250SX2005

FEATURES

- New dual ring piston
- New softer clutch springs
- New cylinder head
- New crankshaft
- New shift lever
- New combustion chamber shape, slightly increased
- New exhaust valve springs

450SX2005

FEATURES

- New valve guides
- New crankshaft
- New modified clutch pressure cap
- New piston

200EXC2005

FEATURES

- New CDI box
- Renthal fatbar & dual compound grips
- Nickel coated pipe & aluminium muffler
- Keihin PWK 38mm carburetor

New frame

New lateral chromoly tubes (oval profile) with higher rigidity which improves handling & suspension action without increasing weight.

New swing arm

New design (cast swing arm) with optimized shape according to the stress points, resulting in greater rigidity and premium appearance.

New headlight & mask

New 'SX' style design with integrated brake hose guide, creates a prominent front end with greater room for numbers. Trend setting pentagonal head light bulb.

New digital speedometer

New slimmer, sporty design with integrated buttons for optimal function.
